DATE:

To what extent does their PA implementation plan provide support for students to both demonstrate and deepen their learning together?

How well do the resources/tools that were built into the plan support students within their classroom context?

How well does the plan balance teacher guidance & feedback with student decision-making & choice?

The plan could further support effective collaboration that equitably engages all students in deeper learning if...

Additional questions or considerations:

**Review your partner's PA implementation plan and then provide feedback on how well the plan supports students in becoming more effective collaborators.**

# Reflecting on Peer Feedback (Part 3)

How well does your plan help students individually & collaboratively demonstrate & deepen their content understanding?

How could your plan better balance teacher support for equitable engagement in collaboration with student decision-making & choice?

Are there additional ways students could get feedback about the effectiveness of their collaboration?

What is one additional strategy or approach suggested by a peer that you could see applying to your future PA implementation?

Overall, what might you adjust about your plan before implementing it with students?

**Review the feedback you received from your partner & then consider how you might refine your implementation plan for use in P-12 classrooms.**
