

UNDERSTANDING COLLABORATION

During the experience observation

15 MIN

Use this tool to observe your students during the escape room or on any collaborative project. Place tally marks in the box whenever you observe a specific behavior. Use the data you record to run a debrief after the experience. Give examples and have students reflect on what you observed.

student participants:

key skills

observations

communication

asked Questions

||||| ||| ||

small outbursts – not
sustained dialogue

actively listened

||||| |||

only 2 students focused on
listening

ignored/interrupted

||
